I hereby register my objection in this case and have attached my specific reasons for doing so in accordance with the instructions of the court. I would like to present the attached objection to the Court in person at the December 14th hearing. I will not have an attorney present and my testimony should last less than ten minutes. I invite questions from Court and all parties.

I certify I am a member of the class A by ownership of a Remington Model 700, 222 Rem Mag, Date Code "DK", serial number 74900. This rifle is unaltered and the trigger is still sealed. I also own a Remington Model 700, 6mm Rem, date code DL, serial number 198427 that is original and unaltered.

I have owned and do now presently own numerous other Remington rifles and actions covered by this class. These include Model 660, 700 and Model 722 rifles with repaired or replaced triggers.
